Dear Major Needler:

I have the greatest pleasure in transmitting to you a letter which I have just received from General Gwatkin. It will I know be as great a gratification to you as it is to those of us who have been interested in your work.

Will you be kind enough to transmit the thanks of General Gwatkin to your staff ?

Dear Mr. President

I regret I have to complain to you about the unusually heating of my room. For nearly two weeks now there has been no steam in the pipes. An electric heater was placed in my room; and today as if to emphasize the outrage the electricity has been turned off. The walls of the room are absolutely cold. Of course I have contracted a cold. If the rest of the staff were subjected to similar conditions the few of them would be here at all, and of some obituary notices would be in the "Monthly". It is quite false to say the room cannot be heated. I hope you will instruct the Supt. to talk action

absence of willingness to comply with the circumstances of the case. I fully appreciate the amount to my credit last letter would be the proper time to decide the question of my return to the institution. I hope you will find it convenient to forward me the check referred from the Manufacturers under such circumstances I do not like to

be to me always a pleasure to return to the institution where I have spent so many and such happy years.

Sincerely yours

Alfred H. Allen

Dear Sir:

In the absence of Sir Robert Falconer in England I beg to acknowledge the receipt of your letter inquiring about a course in law. I have sent you a calendar outlining the course that we offer, but in order to practise it would be necessary for you to take the work given by the Upper Canada Law Society at Osgoode Hall, Toronto.

I am sure that if you feel that you would be a success in law it would be the course to pursue and if you have the necessary entrance requirements for Osgoode Hall there would be no difficulty in entering upon the work .You would have to write to Osgoode Hall for information about the length of the course, because I have no details of their work. Dr. N. W. Hoyles, the Principal of the Law School will be able to tell you all the requirements.

Yours very truly,

President's Secretary.

University of Toronto.

My dear Mr. Norwich:

Will you kindly thank the men of the Fourth Year of the Faculty of Applied Science for the kindness they have done me in asking me to be present at their Graduating Dinner at the Queen's Hotel on Thursday evening of this week? Had it not been that I have been confined to the house with a severe cold for the past week and shall not be allowed to venture out until at the earliest Wednesday I should have been glad to be with you, but in the circumstances may I ask you to tender my regrets to the year and at the same time to say that I hope you will have a very enjoyable evening, and that your last celebration of this kind at the University will be the best ? Particularly give my kind regards to any of the returned men who are in your midst ?

Yours sincerely,

President.
